DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Castenada et al.

Castenada (Figure 1) shows a pair of connecting spring plates 102, 104 coated with gold or similar conductive materials (for example Nickel) wherein one end of the plates are treated with solder for connecting to a circuit on a circuit board while the other end is free for pressure contact.
